Conference: 10th May 2025

Capture the Flag: 11th May 2025

# What is ENUSEC?

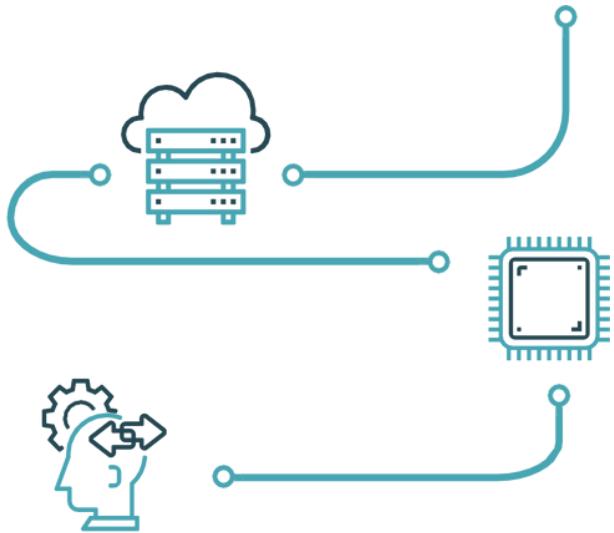

Formed in early 2015 by both students and staff, the Edinburgh Napier University Security Society (ENUSEC) has quickly grown into a thriving community of Cyber Security students from across the University who come together on a weekly basis for workshops, meet-ups, talks and more.

Since then, the society has grown from 10 members in 2015 to over 100 members in 2022. Our members have attended and spoken at leading conferences and events in Dubai, Las Vegas, Washington D.C. and many other cities in between. Our goal for 2025 is to become the most recognised Cyber Security student society in the UK.

As a community, we have worked as a conduit for professional and social development for our members, enabling them to take advantage of the numerous opportunities open to us. While our members present at national events, teach in foreign countries and compete on an international level, our focus is on cultivating a relationship between students and the UK's Cyber Security professionals.

# What is Le Tour Du Hack?

Now entering its 10th year, Le Tour Du Hack has grown into a flagship event, consistently selling out and bringing together over 230 students and professionals. The 2024 edition featured an expanded three-track conference, followed by a highly competitive, student-led CTF.

Building on the success of previous years, LTDH25 will continue with this format, combining a multi-track conference on Day 1 with a CTF on Day 2. Based on feedback, we're placing a stronger emphasis on sponsor engagement, ensuring more opportunities for interaction with attendees.

As one attendee shared, "The best cyber security conference I have attended. Fantastic speakers every year and an amazing platform for students to network and begin their infosec journeys!"

## CONFERENCE DAY

The first day of LTDH25 will follow a traditional cybersecurity conference format, featuring multiple tracks with a mix of student and professional speakers.

Recognising that networking can sometimes feel overwhelming for students, we've made several adjustments since 2024. Sponsor booths will now be placed in a central area between all tracks, adjacent to the break zone, to increase visibility and make interaction more accessible.

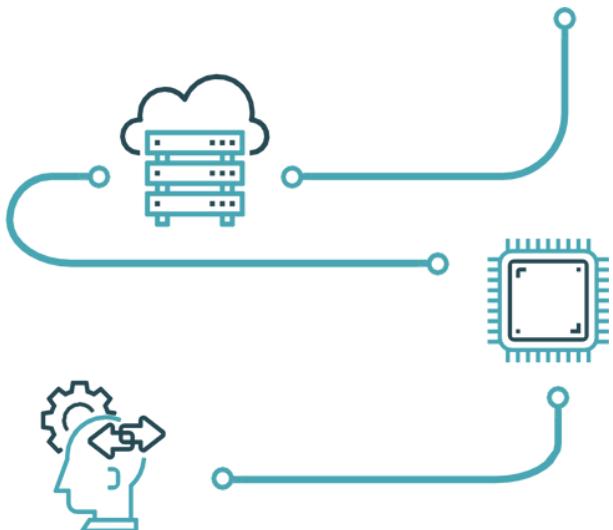

## CTF DAY

LTDH25's second day will centre around our large-scale, student-led CTF event. All challenges are developed in-house by ENUSEC members, with optional contributions from our sponsors.

In response to feedback from previous events, we will offer a wide range of challenges, catering to both beginners and advanced participants. This ensures that everyone, regardless of skill level, can get involved in the competitive fun.

# Who will be attending?

Since its inception, Le Tour Du Hack has become a key event for the Cyber Security community, attracting students, graduates, industry professionals, and academics alike. The event fosters collaboration and learning, offering something for everyone from newcomers to seasoned experts.

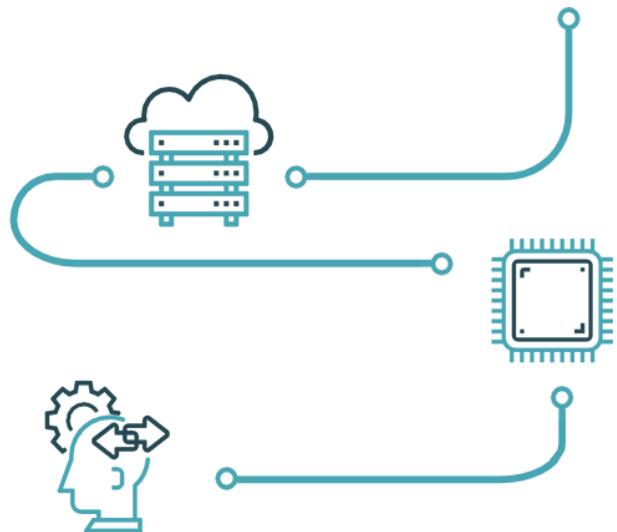

For sponsors, LTDH25 provides direct access to emerging talent, valuable networking opportunities, and increased brand visibility. By supporting the event, you'll showcase your organisation as a leader in cybersecurity, with options to engage through workshops, talks, and tailored sponsorship packages.

Our continued success is made possible by the support of the industry, helping us bring an event of this scale and quality to life. This document outlines how your involvement can contribute to LTDH25 and the ways in which we can collaborate to make the event a success.

Your involvement helps make LTDH25 a reality, and we're excited to collaborate with you to create an unforgettable experience for everyone.
